## **PRODUCT DEVELOPMENT**

Co-inventor with the Sharper Image of *The Treat&Train Professional Dog Training System*. Brought to Market April 2005. This is a positive reinforcement system for training dogs to run to a rug and lie down when visitors arrive at the door rather than jumping, barking and dashing out the door. Development included performing two research experiments, instructing engineers on the features required, product testing, writing an instruction manual, and developing an instructional DVD. The product is currently sold by *Premier Pet* as the *MannersMinder* Dog Training System.
