In this 103-minute DVD, Dr. Yin tells the story of how she secretly trained her father's Cattledog puppy, Lucy. As a result her father started off with a polite, focused, well-socialized puppy. Find out how, after only two weeks with her parents, Lucy became an overly-excitabile, impulsive puppy who was starting fights with other dogs. See the step-by-step plan that got Lucy back on track so that by 16 weeks she was a dream puppy again.
