Learn the skills to quickly and successfully train your difficult dog. Now you can learn at home how to develop your dog's impulse control, and your own leadership skills. In this series of fun and practical exercises for both humans and dogs, Dr. Yin teaches you exactly how to move quickly and clearly enough to keep your dog interested and focused on you. Step-by-step exercises to keep the lunging, barking, or reactive dog focused on you in a positive way. Drills for quick movement and rapid reward delivery insure that you will do it right to help your dog.

**Best For:**

- Veterinary Technicians
- Dog Trainers
- Owners
